Github: [Mahdi-Hazrati](#) and [Qiamast](#)

Mahdi is an experienced web developer with a strong background in JavaScript and ReactJS. He's proficient in HTML, CSS, Bootstrap, Flexbox, and Grid for front-end development. He has excellent problem-solving skills and attention to detail, and seeks a challenging position to create innovative solutions while expanding his knowledge and skillset. Mahdi has experience collaborating with clients, writing clean code, using Git for version control, ensuring website accessibility, optimizing performance, testing and debugging code..

Skills:

- Strong background in JavaScript language with a focus on ReactJS
- Experience with Python and Git for version control and project management
- Proficient in HTML, CSS, Bootstrap, Flexbox, and Grid for front-end development
- Passion for learning and staying up-to-date with industry best practices
- Ability to work both independently and collaboratively
- Excellent problem-solving skills and attention to detail

Experience:

Python Programmer (Freelance) – 2019 to 2020

Front-End (Freelance) – 2021 to Present

- Collaborated with clients to develop websites that meet their specific needs and requirements
- Wrote clean, efficient, and well-documented code using HTML, CSS, JavaScript, and ReactJS
- Used Git for version control and managed projects through Github
- Ensured website accessibility and optimized performance for improved user experience
- Tested and debugged code to ensure functionality and troubleshooted issues as needed
